Open to remote and relocation

Guillermo Andújar Martínez

Software Developer

Software developer who builds and ships real products end to end, not tutorials. Based in Seville and currently the sole technical profile at an ecommerce company, where I design and build the entire AI and automation infrastructure. On my own I have published Tattoo Inkprep, a mobile app live on the App Store, built a production grade B2B SaaS with a full RAG pipeline and vector search, and I am currently developing a personal finance app with AI driven insights, all architected and developed solo. I am ambitious and I want to build things that reach a lot of people, and I adapt to new environments and pick up new technologies fast. EU citizen · English C1 · German B2/C1

FEATURED PROJECTS

Tattoo Inkprep · Mobile App for Tattoo Artists [Live on the App Store](#)

Mobile app for color tattoo artists, published and live on the App Store. I lead the project in every area: product, design, development, marketing, App Store presence and user growth.

Stack: Flutter · Dart · REST APIs · App Store Connect

Taiko · B2B SaaS with RAG & Vector Search [Production-grade architecture](#)

Multi-tenant SaaS platform for SMBs: product catalogs managed through a conversational AI chatbot powered by a full RAG pipeline and vector search. End-customers query inventory in natural language. Built solo as final degree project.

Stack: Python · TypeScript · Node.js · RAG Pipeline · pgvector · OpenAI API · LangChain · Java Spring Boot · FastAPI · Docker

Wialth · AI-Powered Personal Finance App [In Development](#) · [Waitlist Live](#)

Personal finance mobile app with AI-driven insights, secure bank connectivity and automatic transaction analysis across 6,000+ European banks (N26, Revolut, Trade Republic, BBVA, Santander). Full mobile, backend and AI stack built solo from scratch.

Stack: Flutter · Dart · Python · Java Spring Boot · PostgreSQL · pgvector · LLMs · Embeddings · Docker · CI/CD

EXPERIENCE

Full Stack AI Systems and Automation Developer · [Bakano](#)

Jun 2026 – Present · Seville

- ▶ Sole technical profile at BAKANO, an ecommerce company. Responsible for designing and building the company's full AI infrastructure, from customer service automation to logistics and internal operations
- ▶ Working with Python, n8n, Make, Claude and RAG systems to connect every layer of the business through intelligent, end to end solutions

Software Developer Intern · [People Recruitment Tools Europe GmbH](#)

Feb – May 2026 · Vienna

- ▶ Erasmus internship at an AI-driven SaaS startup; built multiplatform software features, internal tooling and managed data pipelines in a production environment
- ▶ Participated in agile sprint cycles within an international team, contributing to cross-functional product decisions and technical planning

Software Developer Intern · [Atos / Eviden](#)

Apr – Jun 2025 · Seville

- ▶ Internship at a global multinational tech company (70+ countries); contributed to real production projects across backend and database layers
- ▶ **Deepened skills in** full-stack architecture, REST APIs and enterprise software practices

EDUCATION

Higher Technician in Multiplatform App Development (DAM) · [FP Grado Superior](#)

2024 – 2026

- ▶ Software development · Database management · Mobile dev · Backend · Software architecture · Full development lifecycle

International High School Diploma · [San Francisco de Paula, Seville](#)

2022 – 2024

- ▶ U.S. curriculum · Validated as Spanish Bachillerato by the Ministry of Education · GPA: 8.20 / 10

TECH STACK

Advanced	Flutter · Dart · Python · RAG Pipelines · Vector Search · Embeddings / LLMs · PostgreSQL · REST APIs · JavaScript / TypeScript · Docker
Intermediate	Java Spring Boot · React · Vue.js · Node.js · Kotlin · AWS (EC2 · S3 · Lambda) · Git / CI/CD · SaaS Architecture (multi-tenant) · FastAPI
Familiar	Redis · MongoDB · GraphQL · GCP · Azure · HTML / CSS · Advanced SQL
Open to learn	Go · Swift · Rust · C#.NET · Angular · Kubernetes · Terraform · any stack

LANGUAGES

Spanish	Native
English	C1 · Professional working proficiency (primary work language)
German	B2/C1 · Acquired living 4 years in Zürich (2013–2017) · Actively improving · No official certificate

EU citizen · No visa or work permit required anywhere in Europe · Open to remote and relocation
